Subject: From the European Crystallographic Association

Dear colleague(s),

may I introduce myself? I am Prof. Dr. Wulf Depmeier from the University of Kiel, Germany (www.min.uni-kiel.de). During the recent European Crystallographic Meeting I have been elected officer of the Executive Committee of the ECA and given the task (amongst others) of keeping relationships with regional crystallographic associations. I learnt about the Armenian Crystallographic Association recently and congratulate you with the nice homepage. My question is now whether I, on behalf of the ECA, can do something useful for ArCA. In addition, I would be grateful for any kind of further information about crystallography in your country.

I am looking forward to your answer and present you my

best regards

W. Depmeier
